School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.

An IPM plan is required if a school district uses pesticides¹.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rats and Mice	4		7	Ø		4		
General Insects	Ø		7		Ø	1	2	
Ants						4		
Ground squirrels and voles					2			
Gophers and Moles						Ø		

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

	esticides (pesticide products and active ingredients) to be applied during the year. (This by school district staff or licensed pest control businesses.):

	hool district staff during the calendar year, except pesticides exempt ¹ from HSA recordkeeping, resticide Regulation at least annually, by January 30 of the following year, using the form
Notification This school district has made this IPM plan This IPM plan can be found online at the This IPM plan is sent out to all parents	
Review This IPM plan will be reviewed (and re and correct. Date of next review: January 2020	evised, if needed) at least annually to ensure that the information provided is still true

These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes

used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Date:

I acknowledge that I have reviewed this school district's PM Plan and it is true and correct.

List of Potential Pesticides

The following list is for control of gophers, moles, voles and ground squirrels

Name of Pesticide	Active Ingredient	EPA REG Number
Rodent Bait Chlorophacinone Treated Grain	.005% Chlorophacinone	10965-50004
Rodent Bait Diphacinone Treated Grain	.005% Diphacinone	10965-50001
Gopher GetterType 2 AG Bait	.005% Diphacinone	36029-23
Omega GopherGrain Bait	.5% Strychnine Alkaloid	5042-32
Martin's Gopher Bait 50	.5% Strychnine Alkaloid	53883-24
Talpirid	.025% Bromethalin	12455-101
ZP Rodent Oat Bait AG	2% Zinc Phoshide	12455-102
The Giant Destroyer	50% Sodium Nitrate, 38% Sulfur, 9% Charcoal	10551-1
Aluminum Phosphide	55% Aluminum Phoshide	72959-1

The following list is for rat and mouse control

Name of Pesticide	Active Ingredient	EPA REG Number
Contrac All Weather Blox	.005% Bromadiolone	12455-79
Final All Weather Blox	.005% Brodifacoum	12455-89

The following list is for general insect control

Name of Pesticide	Active Ingredient	EPA REG Number
CY-KICK CS	6% Cyfluthrin	499-304
Drione Insecticide Dust	1% Pyrethrins, 10% Piperonyl Butoxide, 40% Amorphous Silica Gel	2014-0591
Talstar P	7.9% Bifenthrin	279-3206
Termidor SC	9.1% Fipronil	7969-210
Alpine WSG	40% Dinotefuron	499-561
Maxforce FC Ant Killer	.001% Fipronil	432-1264
