

WHAT IS EL PUENTE SCHOOL?

El Puente is an alternative school of choice within SUHSD that follows the independent study model. For the 2021-22 school year, we have online and in-person classes. Independent studies is a great fit for students who do well working on their own and need flexibility in their day.

To Sign up, talk to your counselor at your current school to begin the application progress. Space is limited and there is often a waitlist to get in. For more info, visit our FAQ at eps.is/faq

WHAT DOES INDEPENDENT STUDY LOOK LIKE?

At El Puente, students...

- Take 1 course at a time for 70 minutes each day, online or in person
- After class, they are expected to do 5 hours of classwork independently
- Most students finish each course in 6 weeks, though some finish early
- Students complete at least 60 credits each year
- While their 1 class meets daily at the same time, students can complete their 5 hours of daily work on their own schedule
- This system offers great flexibility but also requires a lot of dedication
- Support classes are offered for students who need extra help
