

# FREE After School Education and Safety (ASES) Program (Grades 7–8)

After School Education and Safety (ASES) is a result of a voter initiative passed by taxpayers in 2002 to provide after-school programs in the state of California.

The ASES program funds the Salinas Union High School District's after-school program which is run by our partner, Elevo.

It is our goal to provide students with a rewarding after-school program that promotes social development in a safe and inclusive environment. Priority enrollment will be given to homeless and foster youth.
